Elecro Heaters are suitable for use with all types of swimming pool and filtration systems. As long as you have an external pump/filtration system that diverts water outside of the pool, you can heat your water.

They are easy to install: just plumb in¹ and wire up². Then relax and enjoy glorious warm water.

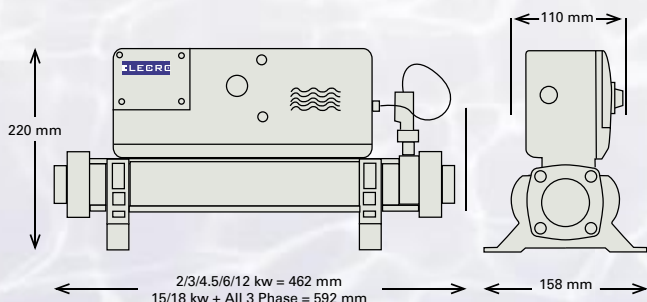

1. Safe and universally suitable for coupling to all types of filtration system.
2. Electrical connection via a mandatory separate RCD, a qualified electrician must carry out all electrical work

Reversible Flow Switch
Thermostat U Control
Separate Safety Thermostat
Integral Contactor relay
Optional 24hr Timer
