Laboratoire National d'Essais)

Swimming pool safety cover  
designed to prevent access  
to the pool for children  
under five years of age.

Keep this document  
for future reference.

# WALU POOL

## ALL-SEASON SAFETY COVERS

### EVOLUTION Model

WALU POOL replaces all the following :

- Solar bubble cover
- Reel system for solar bubble cover
- Winter cover
- All other safety systems (fences, shelters, immersion detectors ... etc)

**EVOLUTION**  
aluminium profile  
fitted on surface, with  
its ends resting on pool  
coping stones

#### WALU POOL : Safety has been our priority for more than 13 years!

Half-round anodised aluminium supporting bars, modular panels made of reinforced flexible composite material with anti-abrasion treatment and attaching system:

**WALU POOL** covers are designed to provide optimal safety:

- **EVOLUTION Model** for all pool shapes\* up to 10 x 5 m,
- **STARLIGHT Model** for all rectangular pools\* (with or without steps) up to 11 x 5.50 m.

\* As per pool drawing provided

Compliance with French safety standard  
**NF P 90-308**  
(tested by official test laboratory,  
Laboratoire National d'Essais)

Fitting the crank

Weighing 1.250 kg per sq. meter, **WALU POOL** can be rolled up in 2 or 3 minutes by just one person using a geared-down manual crank (or two people using two cranks for pools of at least 50 sq. m) or a motorised crank.

#### WALU POOL : The only swimming pool cover with interchangeable bars and panels !

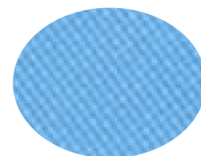

Exclusive patented WALTER system: The cover's panels and anodised aluminium tubes are interchangeable and so can be replaced at lesser costs and individually on site, if necessary.

This advantage means you never have to be without your pool safety system and ensures your cover always looks attractive.

#### WALU POOL : Protection and cleanliness through summer and winter!

Its concept and, particularly, the efficient sealing around its edges ensure your swimming pool remains clean through summer and winter.

#### > Colours

Translucent blue

Translucent white

#### Warning :

This cover does not dispense with the need to take sensible precautions and exercise individual responsibility. It is not intended to dispense with the need for supervision of young children by their parents and/or responsible adults, which remains essential for their safety

# STARLIGHT Model

**STARLIGHT**  
Even simpler and easier to handle, and a classy attractive look

## WALU POOL : For use all year round!

Special features: WALU POOL is available in two versions:

- **Opaque** : Shuts out light so slowing down the growth of algae and pathogenic micro-organisms and reducing considerably the use of chemicals.
- **Solar** : During the day, it captures solar energy to keep your pool heated throughout the summer, which represents an appreciable energy saving.

Both the **Opaque** and **Solar** versions of **WALU POOL** trap an insulating air blanket which helps avoid heat losses during the night, so you can use your pool for longer.

## WALU POOL : Small storage space needed!

When it is rolled up at one end of the pool, the **WALU POOL** cover takes up very little space.

- 2 types of edge attachment fitting.

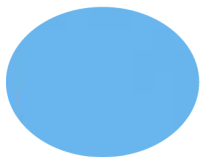

**For safety** : straps and stainless steel fasteners along widths (simple and quick).

**For bad weather** : Cables along lengths (ideal for winter)

**STARLIGHT** aluminium profile fitted on underside, with its flat ends resting on coping stones

Opaque blue

Opaque Swiss green

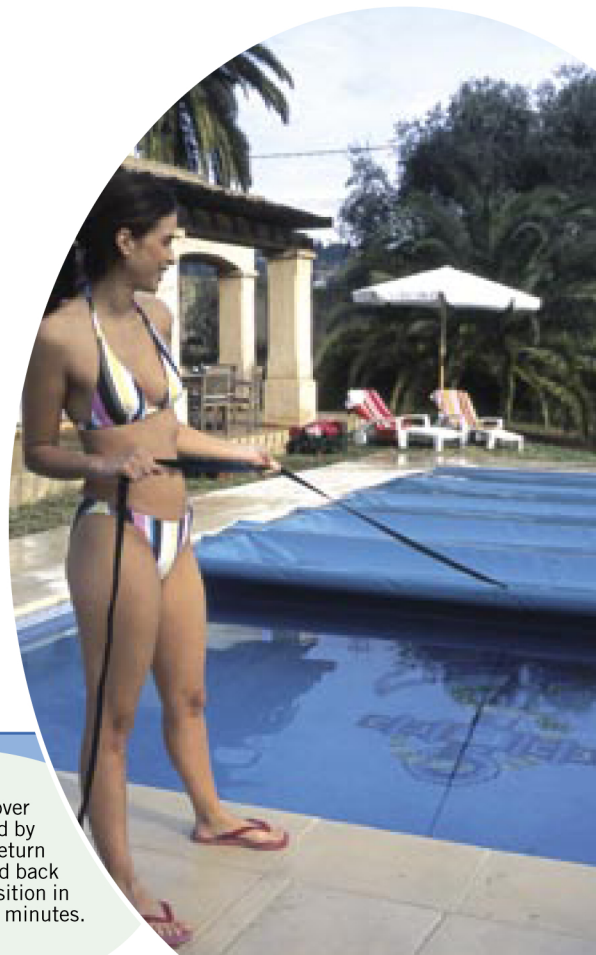

Opaque emerald

\* According to our general warranty terms delivered with the cover.

The **WALU POOL** cover can be quickly unrolled by just one person, using its return strap, and can be moved back to the safety position in less than 3 minutes.

# WALU MATIC MOTORISED CRANK

## MOTORISED CRANK with 24-volt battery

**WITH WALU MATIC, ROLLING UP YOUR WALU POOL SAFETY COVER IS EVEN EASIER AND QUICKER**

EVEN  
EASIER

## WALU MATIC: Easy handling!

You can uncover your swimming pool effortlessly and in less than one minute. Unrolling is performed simply by means of the central pulling strap.

A very high efficiency perforator coupled with a powerful back-gear motor provides a better solution than geared-down manual cranks.

## WALU MATIC : Your safety above all!

WALU MATIC is equipped with a high-performance 24-volt nickel-cadmium battery for your safety. Its quick charger completely recharges the battery in less than 20 minutes.

## WALU MATIC : Smart design!

The cleverly designed lateral holding handle and the antifriction wheel are reversible so you can choose the side where you want the cover to be rolled up, to suit your layout or personal preference.

The WALU MATIC motorised crank can be fitted to all existing WALU POOL covers\*.

A useful feature is that the perforator can easily be removed from the rod and used for jobs requiring a drill with or without a hammer function.

\* maximum pool size: :  
11,00 x 5,00 m.

- BATTERY WITH CHARGE CONTROL
- MORE POWER
- SHORTER RECHARGING TIME
